

A professional, powerful high-speed burnisher, designed with operator comfort and performance in mind

The right combination of pad speed and pressure makes all the difference when it comes to maintaining a truly professional, long lasting shine. The Profi™ high-speed electric burnisher is expertly balanced for ideal pressure and sustained RPMs. The burnishers are known industry-wide for excellence in design, operator comfort, and unsurpassed burnishing performance. All machine bases are steel, designed for years of use and precision balance. The unit includes a 20" burnishing path, a lock-in retainer pad holder, 1.5 HP motor, and a unique safety start handle.

The machine features bumper guards, height-adjustable handle, and rear-mounted stair climbing wheels for transport. The Profi™ burnisher comes standard with a clever folding handle with cam lock. The handle safely collapses the unit for ease of storage and transport.

INTELLIGENT DESIGN

The Profi™ burnisher features a height adjustable handle, carrying grip, sturdy motor shroud, and rear-mounted stair climbing wheels for transport on inclines and steps.

PROFESSIONAL PERFORMANCE

The Profi™ high-speed burnisher provides optimal head weight for the best shine possible.
