- M 17" 220/360 RPM Bi-Speed
- M 20" 190/330 RPM Bi-Speed

Superior value, engineering
and cleaning performance.

M 17" RPM Floor Machine

Rugged Design for Long-Lasting Use

Certain environments can exact a heavy toll on even the most ruggedly designed cleaning equipment. Tornado's[®] M Series of Floor Machines have it all when it comes to heavy-duty applications including rolled steel bases with non-marking soft bumper guards, a triple planetary gear system, and cast aluminum Start Guard I handle for safety, added strength and operator comfort. The M Series features our heavy-duty, dual-capacitor, 1.5 HP motor with a high torque configuration and low-amp draw for the ultimate in power.

Perfect for all your floor care needs

From daily polishing to heavy scrubbing or stripping, the M Series of Floor Machines from Tornado[®] have what it takes for the cleaning and maintenance professional. These units will increase your cleaning team's efficiency and minimize equipment downtime, all at a price that runs circles around the competition.

Available in a Versatile Two-speed Model

When maintenance budgets or square footage do not warrant the purchase of a 175 rpm floor machine for scrubbing and an ultra high-speed for polishing operations, a Tornado[®] M Series Bi-Speed is the perfect solution.

The Tornado[®] M Series Bi-Speed buffers offer true versatility in hard floor maintenance. On low speed, the units can be used in traditional floor machine operations such as scrubbing and stripping. At the flip of a switch, the speed can be raised to increase productivity in buffing operations. The 17" unit delivers 220 rpm scrubbing and 360 rpm buffing speed, while the 20" model features 190 rpm scrubbing and 330 rpm buffing speed.

M Series 17" Floor Machine, 17" Bi-Speed Floor Machine, and 20" Floor Machine and 20" Bi-Speed Floor Machine.

Key Features

- Offering a minimum of 175 rpm scrubbing power
- Quick-grip pad holders come standard
- Cam-lever provides variable height adjustment
- Ergonomic Start Guard and handle for safety and added strength
- Cushioned handle grips to minimize operator fatigue
- Optional shampoo tank with variable-rate solution control for scrubbing or carpet cleaning
- Can be fitted with pads and disc brushes for multiple tasks
- Bi-Speed models have the versatility to provide stripping or ultra high-speed polishing
- Quick-grip pad holder for more efficient change and disposal of disc pads

M 17" 175 RPM Bi-Speed Floor Machine

Versatility

The Tornado® M Series of Floor Machines provides easy operation, versatility, innovative features, and durable design for use in many different environments including:

- Hospitals and Healthcare Facilities
- Schools and Universities
- Hotels and Resorts
- Restaurants
- Commercial Office Buildings
- Retail Stores and Shopping Malls
- Industrial Facilities, large and small

Disc brushes

The M Series can be fitted with an assortment of optional scrub brushes for a variety of applications on hard floors, from scrubbing to stripping. A shampoo brush can be used for carpet.

Shampoo tank

This optional accessory permits the dispensing of solution onto hard floors or carpets. Solution can be released at variable rates for scrubbing or bonnet cleaning.
