

A better way to clean.

PV 6 Pac-Vac® Vacuum

Lightweight Ergonomic Design,
Four-Stage HEPA Filtration,
Labor-Saving
Cleaning Productivity,
and Maximum Value.

Clean over 7,000 square feet per hour with the PV 6.

Maximize Cleaning Speed and Efficiency

Providing a faster and more cost-effective alternative to traditional upright vacuums, Tornado's PV 6 Pac-Vac backpack vacuum is one of the most powerful, easy-to-use and quiet backpack vacuums you'll ever use. Designed for superior operator comfort and increased productivity, these super-quiet units eliminate the need to bend over as required with traditional upright vacuums. Not only do workers expend less effort doing their jobs, getting in and out of tight or confined spaces becomes a breeze. As a result, cleaning productivity dramatically increases to over 7,000 square feet per hour.

Comfortable Design

The PV 6 Pack-Vac delivers features for maximum comfort including a lightweight and durable injection molded housing designed to eliminate heat transfer from the motor to the operator's back.

Minimize Service Needs

With 1.9 HP, Tornado's PV 6 Pac-Vac achieves static lift of 90" and airflow of 120 CFM at a super-quiet 71 decibels. The PV 6 has a lower cost of ownership over the life of the product compared to upright vacuums, thanks to minimal service requirements. And what's more is the PV 6 has the ability to recover paperclips and other debris that upright vacuum cleaners often struggle with.

Attention to Air-Quality

Reducing and minimizing dust particles and contaminants are critical to healthy buildings. While vacuuming is an extremely effective tool in removing potential allergens, use of the wrong machine can actually reintroduce contaminant back into the air. The PV 6 Pac-Vac's true HEPA filtration (99.97% efficiency at 0.3 microns) is designed to contain fine particulate and dust, improving indoor air quality and reducing the risk associated with the redistribution of potentially harmful particles and allergens.

PV 6 Pac-Vac® Vacuum

Key Features

- True HEPA Filtration System for Improved Indoor Air Quality (IAQ)
- Superior 71 dB rating for whisper-quiet operation
- Lightweight at only 11 lbs.
- Ergonomically designed back support and harness
- 90" water lift
- 120 CFM
- Complete set of tools and adjustable double bend wand

Versatility

Tornado's PV 6 Pac-Vac is perfect for use in a variety of environments including hospitals, schools, libraries, commercial offices, government facilities, hotels and department stores.

Cleaning System Applications

- Zone Cleaning
- Specialist Cleaning
- Day Cleaning
- Blended Cleaning
- Cooperative Cleaning

Packaged Complete

Standard attachments include a crush proof hose, double bend adjustable wand, easy glide floor tool, a dust brush, upholstery tool and crevice tool.

Heavy-duty padded nylon shoulder straps for a better fit.

Vented ergonomic back plate for enhanced worker comfort.

PRODUCT SPECIFICATIONS	
MODEL	PV 6
CATALOG NUMBER	93028
MACHINE DIMENSIONS	
L X W X H	7 1/2" x 9 1/2" x 20 1/2"
NET WEIGHT	11 lbs.
RECOVERY BAG CAPACITY	6 qt.
CORD TYPE / LENGTH	50' / Pig Tail
HOSE	5' x 1.5" 4 to 1 stretch
DESIGN CHARACTERISTICS	
BODY CONSTRUCTION	Injected Molded
CORD STRAIN RELIEF	Yes
WAND DESIGN	Adjustable Aluminum
BAG TYPES	Disposable paper collection
CLEANING SYSTEM	
FILTRATION SYSTEM	4 stage including HEPA
DISPOSABLE PAPER FILTER BAGS	C352-2500 (10 pack)
CLOTH FILTER	C352-1400
HEPA FILTER	B352-2401
MICRO FILTER MOTOR EXHAUST	B352-2400
MOTORS	
VACUUM MOTOR	1.9 HP / 1400 watts
AMPS	12
WATER LIFT	90"
CFM	120
CLEANING PRODUCTIVITY	7,407 sq. ft per hour
SOUND LEVEL	71 dB
WARRANTY	
LABOR	1 year
PARTS	1 year
REPLACEMENT ITEMS AND ACCESSORIES	
DISPOSABLE PAPER FILTER BAGS	C352-2500 (10 pack)
OUTER CLOTH FILTER	C352-1400
TRUE HEPA FILTER CARTRIDGE	B352-2401
HOSE	A352-3400
ADJUSTABLE WAND	B352-3900
CREVICE TOOL	B352-3600
DUSTING TOOL	B352-3800
FLOOR TOOL	B352-4500
CARPET TOOL	B352-4201
FOAM EXHAUST FILTER in lieu of HEPA	B352-5200
